SUBJECT.

Contribution towards the Construction of a Musafirkhana at Ranjungad.

OFFICE OF THE
541
MUZRAI
BRANCH
DEWAN OF MYSORE

(General Serial No. 30.)

1893

From The Sanitary Engineer with the Govt. of Mysore.

To The Secretary to the Government of Mysore.

Dated Nanjangud, Dasara Mysore, 15th Bangalore.

Despatched 18th

Received 19-12-93 Dec. '93.

Enclosures No.

General No. 1805
No.

Requesting to be informed what portion of the probable cost of constructing a Musafar Khana with latrines in the Jogi Tope at Nanjangud (viz: Rs: 15000) could be contributed from Temple Funds.

Recommended 1004 by 28/12/93

No: 1805

AS 19/12/93

Office of the Sanitary Engineer
with the Government of Mysore,
Dated, Mysore, 15th December/93

From,

The Sanitary Engineer
with the Govt. of Mysore.

To,

The Secretary
Government of Mysore
Revenue Department.
Bangalore.

Sir,

I have the honor to advise for your information an extract from a Report of the 3rd General assistant Commissioner, Mysore District, received through the Deputy Commissioner, Mysore, reporting the Sanitary condition of the town of Ramanagud.

2. The extract alluded to, relates to the proposal of constructing a Musafar Khana on the bank of River Arkavathi in the Sogane Hobli,

over

are arranged to afford shelter to pilgrims reaching Rangoon, who for want of accommodation have at present in the Shan Expn both day and night.

3. This is one of the various measures proposed to improve the Sanitation of the town, projects for which are under preparation. The cost of building including that of latrines, which consider to be absolutely necessary, will probably come up to Rupees 15,000. Considering importance of the question as concerning health of the large number of persons visiting Rangoon on religious pilgrimages

seasons of the year it seems undesirable Chairman to make a liberal grant from the Cantonment Funds towards the initial cost of the new rest building; and I would therefore be glad to hear from you what portion of the cost you are prepared to contribute. On receipt of a favorable reply from you the

the government will be moved to sanction a grant in-aid for the balance. The subscriptions proposed to be raised by the assistant commissioner from the people themselves during the "jatras", if approved by government, may be utilized for maintaining the structure.

I have the honour to be,

Sir,

Your most obedient servant.

Sanitary Engineer
with the Govt. of His Exalted

Para 13:- He further proposes to construct a musafir khana on the bank of the Kapila in the Agraharam. It is to be a narrow long building containing about 80 rooms with varanda in front for pilgrims to occupy on occasions of jattras on payment of a small rent. The auditor thinks that the suggestion is good and if carried out would prove a blessing to the

the Jatra attending rejots and others who
want of accomodation now live with families
in Open Grounds and on the Pyals of houses in the
town The proposed bridging no doubt would
cost between 10 or 15 thousand Rupees on
rough calculation A portion of the cost
can be met from the Famine Funds and
the balance may be either paid by Govern-
ment or easily raised by subscription during
the Jatras if such a Course is advisable

the Estt of Mysore

Sir,

I have the honor to acknowledge receipt of your letter no 1805 of the 15th Dec 1893 regarding the construction of a Musafarkhana in Nanjangud for the benefit of the pilgrims assembling there during the temple Jatras.

2 While fully agreeing with in your remarks as regards the absence of accommodation for the large number of pilgrims visiting the station during Jatra Seasons, I beg

I state that the
temple can ill-afford
to spare any portion
of its funds for the
construction of the
Annasatrakhana as
proposed in your
letter under
reply. The temple
enjoys only a fixed
annual grant from
both the State for the performance
daily worship services
and the details
of expenditure
are definitely laid
down in a Kaidik
Patti issued
the administrative
of H. H. the late
Raja. But
owing to the
high increase of
the market prices
of provisions since of late
the amount
allotted has now
become handy

sufficient to
meet ~~the expenditure~~
~~of the Institution~~
Under even the
bare necessities
of the Institution. Under
these circumstances
it is not possible
to allow any grants
from the temple
funds towards the
construction of the
proposed Dharmasa-
bhawa.

3. As however,
during the temple
Jatra seasons vast
numbers of pilgrims
from all parts collect in the station,
certain extra Sanitary measures
such as the erection
of temporary latrines,
the more frequent
~~Sweeping~~ Cleaning of the
~~streets in~~ the streets,
& from a tank
are indeed rendered
~~absolutely~~ necessary

on these occasions
to prevent the
breaking out of
~~virulent~~ epidemics.
And, if the local
Municipality under-
-take to arrange for
such temporary
precautionary
measures, ~~I shall~~ be liable
~~to bear half the~~ and contribute
~~to~~ contribute a
fair proportion of
the extra cost
required ~~from the~~
~~Exempted funds~~
for the purpose
